SLIM, FLAT, EASY-TO-USE

The Airline Padlock seal is especially popular in the airline industry, food catering and the communication industry. Its ease of use makes it time and cost effective.

The plastic seal is very slim, which makes it suitable for applications like cash boxes, food carts etc. The seal sits flat when locked and is therefore ideal for applications that are stowed away or might be handled roughly.

The Airline Padlock has a sizeable space for laser-etched customisation.

AIRLINE PADLOCK

**COST-EFFECTIVE, USER-FRIENDLY
PLASTIC PADLOCK SEAL
EASY TO APPLY AND REMOVE BY
HAND.**

- 1] Fits on most applications because of its slim size.
- 2] However, the seal remains quite strong because of the Acetal locking insert.
- 3] Permanent laser marking of sequential numbering, logo or other customized marking for high security and easy identification.
- 4] Unique release tab facility for quick removal without tools.
